

20 december on the main (government) square in The Hague "Oneness-guided meditations"

Oneness in all its diversity

*The meditations are led by Ian Henderson and Marjo van Weenen
(founders of a.o. Shambhala Oneness)*

12: 45 pm

Mamadou Fall with his Special djembé music

13: 11 pm:

*After a short introduction Ian and Marjo will begin with the music from
John Lennon "Imagine" followed by a "heart meditation" of about 15 minutes.
They will start by asking all who are present to close their eyes and imagine how THEY would like to
see the new world.*

This will be followed by Michael Telapary who carries you away with his special musical talents.

14: 22 pm:

*The second "Oneness meditation" will take about half an hour. This meditation will be for the
collective consciousness. We will ground the energy in this place and from there allow it to flow out
to the rest of the Netherlands, Europe, the world and the universe. Utilizing the "Mer-ka-ba and the
Dodecahedron".*

Why precisely at this place!

*All intentions are initially aimed at the Cabinet that controls many thought forms in the Netherlands.
Assuming that thoughts create our future, we will concentrate initially on the people who make the
decisions here in Holland and create a Oneness field that they will tap into and utilize.*

We invite you all to be present or participate.
Together we all achieve more.

If you can't be physically present you can join us and participate by livestream: [www.livestream.nl/
